

Mater Misericordiae University Hospital

The Mater Misericordiae University Hospital is a 600 bed multidisciplinary academic teaching hospital located in central Dublin. It is the national tertiary referral centre for the management of spinal injuries and cardiothoracic surgery, including heart and lung transplantation. It is a designated cancer centre and has regional gastrointestinal, hepatobiliary, neurology and dermatology services.

The Clinical Biochemistry and Diagnostic Endocrinology Laboratory is fully CPA accredited and provides a comprehensive service for the Mater Misericordiae University Hospital and to primary care. The hospital is currently undergoing expansion and has been designated as the site for co-located maternity services and for the new national paediatric hospital.

Senior Clinical Biochemist

We are seeking an experienced and enthusiastic clinical biochemist to join our analytical and interpretative biochemistry and endocrinology service. Preference will be given to those who also have postgraduate qualifications and are committed to progressing to FRCPath. Specialist expertise in the development of molecular diagnostics is desirable.

For further information and/or to arrange an informal site visit please contact Dr. Maria Fitzgibbon, Consultant Clinical Biochemist on 00353 1 8032423 or email at mfitzgibbon@mater.ie

Further information and job descriptions are available at www.mater.ie. The closing date for applications is 9th February 2010.

Interviews for this post are planned for Wednesday 3rd March 2010.
